

Slow + Story

- off the grid Storytelling -

NIELS HOEBERS
Stop Motion Studio

Introducing

Slow stories, subtle stop motion animated scenes that explores the boundaries within Film, Art and Time. Video's without a beginning or an end, edited in an infinite loop.

These animations are specially made to be played off grid, to contrast our daily online video consumption full of hyperactive eyecandy.

Slowstory aims to create a more intimate relation with it's observer, letting them drift and imagine for a short period of time...

Working my way up

Collaboration with Maarten Baas

"It seems to me it doesn't really matter whether one works hard or stumbles one's way through life. Somehow, the result of any lifestyle is equal to any other. While one falls down, another works hard to get higher, but there are always these forces that keeps everybody more or less at the same level."
